

VM WareTrainer Bio (D'Sunte):

VM Ware Instructor has 6 years years of hands-on IT experience in an Enterprise Datacenter environment, with focus on managing backup solutions (NetBackup, BackupExe, Commvault, BrightStor / ARCserve e.t.c.), HW build (HP Proliant, Blade Servers) and experience with VMWare within this environment.

He has a great understanding of the Disaster Recovery process and concepts within the confines of VMWare.

He also has much experience in VMWare with ESX server 4 and working experience in deployment of ESX server using a SAN backend. He also has experience in Administration and building ESX hosts and virtual servers and a full understanding of Virtual center.

He was responsible for evaluation, design and implementation of Intel computing platforms and technologies including but not limited to: server and storage HW, Windows OS, VMware, provisioning, monitoring and related layered software products.

Education:

BROWN UNIVERSITY- Providence, RI
M. Sc., Computer Engineering, 05/98

UNIVERSITY OF BUFFALO- Buffalo, NY
B.Sc., Aerospace Engineering, 05/96

Other Technical skills and background of past clients and experiences:

* **Languages:** Basic (13 years), Pascal(6 years), Visual Basic and VBScript(5 years), Visual C++(5 years), Access Basic(4 years), Delphi (3 years), C++(11 years), C (11 years), HTML(8 years), Ada95(3 years),VHDL(3 years), Java(5 years),JavaScript(5 years), CAE/CAD tools(5 years), Verilog (3 years), Synopsis(3 years), cgi(5 years), ActiveX(4 years), Cold Fusion (3 years),E-commerce(3 years), Oracle database applications(3 years), ASP(4 years), XML (3 years), .NET(6 years) and other simulation tools.

*** Software and Operating Systems:**

Windows 2000/2003, Windows 3.1, Windows 95, Oracle 10, MS Exchange 2000/2003, Lotus 1-2-3, MS DOS, VAX, UNIX, Microsoft Office, QuarkXpress, Adobe PhotoShop, Adobe Illustrator, DreamWeaver, Macromedia Flash, BizTalk, .NET framework

*** Design:**

DSP, ASIC design, Digital Design. Embedded Systems, VLSI, Network Design, Circuit design, some deep-submicron IC design and wireless design

- Coldfusion, Crystal Reports, Filemaker Pro, SQL 7.0, MySQL, PHP, JSP, EJB, JavaBeans, XML, HTML, ASP, VxWorks, RTOS used
- .NET expert on C#, VB.NET, ADO.NET, XML, SQL Server, ASP.NET
- Expert with VB.NET and VB 6.0
- Expert with IBM DB2 UB, Websphere, Websphere MQ family
- BizTalk development and training. Courseware developed for Boeing
- Developed BizTalk applications within the Microsoft Business Solution packages
- Responsible for entire web development team in 3 major projects
- Worked with Oracle database as a fill-in database administrator
- Worked with Oracle Portal 10g for a business to business content management system; relied heavily on integration with XML with portal design
- OLAP, financial forecasting, data warehousing, pivot table analysis
- Goldmine database, ACT! Database design
- Worked with NT, Linux, and Unix environment
- Full software life cycle followed
- Active Directory, Microsoft Exchange 2000 and 2003 support
- Merak Mail integration
- Developed high-profile web environments such as Revolution.com
- Rated among the top ten Minority Business Enterprise in Los Angeles County in information technology
- Trained classes with Crystal Reports, Java, and web technologies to small to enterprises businesses
- Clients for training include Edison, Unisys, and Boeing
- PMP training for Xerox for project management

- Various project management training modules for Fortune 1000 companies
-
- Training Microsoft Technologies
- Worked with ACT! 2005 and other CRM products
- CCNA support and Cisco consulting
