

Business Administration – Management & Marketing (BAMM)

Associate in Specialized Business (ASB)

The Business Administration – Management & Marketing program provides students with the tools needed to become an asset to any company, as well as the leadership and entrepreneurial skills required to start their own business.

Marketing encompasses almost every aspect of a business from product or service development, to developing strategies for promoting, pricing, selling, and distributing that product or service. Students will learn marketing and communication skills, methods for creating social media sites and ad campaigns, and receive hands-on training in current software platforms.

Through a comprehensive educational training program including attention to theory, practice, and application, students in the BAMM program will develop the knowledge, skills, and attributes to perform marketing and management functions within an organization.

Business administration focuses on the management and operational skills that are crucial to running a business. Career opportunities exist within a wide array of industries.
